

## WOODEN BATTEN

TNVED 7318149900

### PRODUCT DESCRIPTION

Wooden battens made from high-quality sanded plywood are used in construction of thin wood-frame soundproofing systems. Extra strong and small-sized battens provide high soundproofing performance without increasing the structure thickness.

### COMPOSITION

– sanded plywood.

### SIZE AND WEIGHT

Modifications	Length, mm	Width, mm	Thickness, mm	Weight, kg
Wooden Batten	1500	50	21	1,1

### APPLICATION

As main elements of thin soundproofing systems in construction of framed walls and ceilings.

### FEATURES

- manufactured from environmentally friendly materials;
- mounting holes;
- room space saving;
- easy to install;
- ideal for installation of StopZvuk Eko Slim sound-absorbing boards.
